

john masters™ organics

“Refreshingly low-tech for a salon located near SoHo, John Masters’s Manhattan hair spa sets the tone for his wholesome philosophy to haircare. His shampoos, made with organic ingredients, are devoid of sodium laureth sulphate, the notorious enemy of sensitive skin.”

“John Masters Organics Deep Scalp Follicle Treatment & Volumizer for Thinning Hair is a leave-in treatment that improves the condition of the papilla (hair root enclosure) with a mix of organic herbs, antioxidants, and essential fatty acids.”

How to Get Soft Lustrous Hair
“Zinc regulates oil, while sage combats frizz; you’ll find both in John Masters Organics Zinc & Sage shampoo.”

“With all the effort you spend moisturizing your lips, face and body this time of year, it’s easy to neglect equally winter-chafed hair. But the static-afflicted can find relief with John Masters’s Organics new menu of seasonal follicle treatments. Coinciding with the treatments is the launch of new ultrahydrating hair and body products.”
